

demo的proto文件配置如下

```
1 syntax = "proto3";
2 package helloworld;
3
4 // The greeting service definition.
5 service Greeter {
6   // Sends a greeting
7   rpc SayHello (HelloRequest) returns (HelloReply) {}
8   rpc Add (AddRequest) returns (AddReply) {}
9 }
10
11 // The request message containing the user's name.
12 message HelloRequest {
13   string name = 1;
14 }
15 message AddRequest {
16   int32 num = 1;
17   int32 num2 = 2;
18 }
19
20 // The response message containing the greetings
21 message HelloReply {
22   string message = 1;
23 }
24 message AddReply {
25   int32 num = 1;
26 }
```
